THE POWER OF FASTENING

# BeA Professional Tools and Fastening Systems

The complete range for distributors, craftsmen and industry

### BeA Tools and Fasteners – The complete range of fastening solutions for industry

The company Joh. Friedrich Behrens AG (BeA) was founded in 1910. In more than 100 years of its existence, it has developed into a global group with a total turnover of over 85 million euros, achieving market leadership throughout Europe in the fastening technology field.

The BeA trademark stands for top of the range products in the fastening technology field. BeA compressed air nail guns and fasteners are characterised by top quality and reliability. In order to maintain these high standards in the future, we are constantly optimising and expanding our product range. By using innovative technologies, BeA sets the standards in fastening technology.

BeA products are marketed by subsidiaries and associated companies in Europe and America. At the same time well-established agencies in over 40 other countries contribute to the global success of the BeA Group.

BeA tools and fasteners are easy to use and perform with excellent results. They speed up your manufacturing process and make them safer and more economical. Our tools are tested in various tough environments.

## BeA. THE POWER OF FASTENING

BeA is a member of  
the following associations:

Bundesverband  
Deutscher Fertigbau e.V.

Hauptverband der Deutschen  
Holz und Kunststoffe  
verarbeitenden Industrie und  
verwandter Industriezweige e.V.

Bundesverband Holzpackmittel,  
Paletten, Exportverpackung e.V.

VBT - Fachverband Verbindungs-  
und Befestigungstechnik

Verband Holzfaser Dämmstoffe e.V.

Le syndicat de la construction bois

Power Fastenings Association

Specialty Tools &  
Fasteners Distributors Association

Le SYPAL syndicat national  
des fabricants de palettes en bois

The UK Timber  
Frame Association

## BeA International

Our international network of fastening specialists can prepare a cost effective package of product, service and pricing that will exceed your expectations.

BeA -  
Quality is  
worth

The BeA group is involved in national and international committees in the creation of the European norms and develops them constantly according to the new demands.

BeA products are certified and stands for reliability, quality and safety

## The combi wall system WEK 100 from Weinmann and BeA Autotec

The WEK 100 is only slightly larger than a working table yet enables the automatic production of complete elements by a single operator.

### Facts:

- Fabrication of complete wall elements by only one operator
- Framework production and sheathing of elements at one workstation
- NC stop system for accurate elements
- Simple and practical gable assembly
- Batch size of 1 without machine setup
- Automatic width adjustment
- Flexible positioning of the operating panel for optimal operability
- 2 holders for BeA Autotec nailing or BeA Autotec stapling tools for joining the framework
- CNC axes for customer specific nailing patterns
- Unique barrier free safety concept

Ideal for use with  
timber frame  
constructions

### BeA Autotec

- Optimal cost effectiveness
- Minimal reloading times
- Individual applications
- Highest possible quality
- Perfectly synchronised solutions
- First class service & support
- Ideal value for money

### BeA Autotec jumbo coil nailer type 268 for roundhead nails in lengths 45 - 70 mm

The battens are fixed to the sheathing using the BeA Autotec jumbo coil nailer for wire collated roundhead nails. The tool can handle nails ranging from 45 - 70 mm in length. Depending on the nail diameter, the magazine can hold up to 1,000 nails. The jumbo coil magazine is simply loaded from above.

### BeA Autotec strip nailer type 270

BeA Autotec strip nailers for roundhead nails up to 160 mm in length are used to join the framework. The long magazines of the BeA Autotec strip nailers can be simply loaded from above.

### BeA Autotec stapler type 264 with changeover cassette for staple type 16/155 and 180

Quick and convenient filling of the Autotec tools by simply changing over the magazines. The CNC controlled multifunctional bridge travels automatically over the element in order to fix the panel onto the frame and further process it. With the BeA stapler, up to 10 shots per second are possible.

## BeFIX screws for timber structures

Hardened, blue galvanised, chromium VI free,  
ETA approval

New:  
Loose  
screws

**BeA 180/90-839C**  
for Type 180 staples  
in lengths 40 - 90 mm

**BeA 200/90-838C**  
for Type 200 staple  
in lengths 40 - 90 mm,  
e.g., for fastening the Promatect LS  
ventilation ducts L90  
and the Promatect cable  
ducts E90 from Promat

- Height adjustment
- Ergonomic handle
- New staple holder for quick tool loading
- Just 3.1 kg

## BeA nailers for staples up to 90 mm

For fastening  
fire protection  
panels

## BeA nailers and Errebi systems for the construction of pallets, pa- ckaging, boxes, wooden packaging, fencing and garden furniture

Depending on requirements, either fully or semi-automated Errebi systems can be used. The basic movements are:

- Forward and backward movement of the bridge along the working table
- Vertical movement of the crossbar with BeA nailers
- Movement of the respective BeA nailers independently of each other to the right, left or centrally is also possible
- Vertical movement of the vertical crossbar to allow use of additional drills or mills
- Horizontal movement of the carriage to allow use of drills, cutting tools and other equipment

**BeA 550 DC**

**BeA R160-962E**

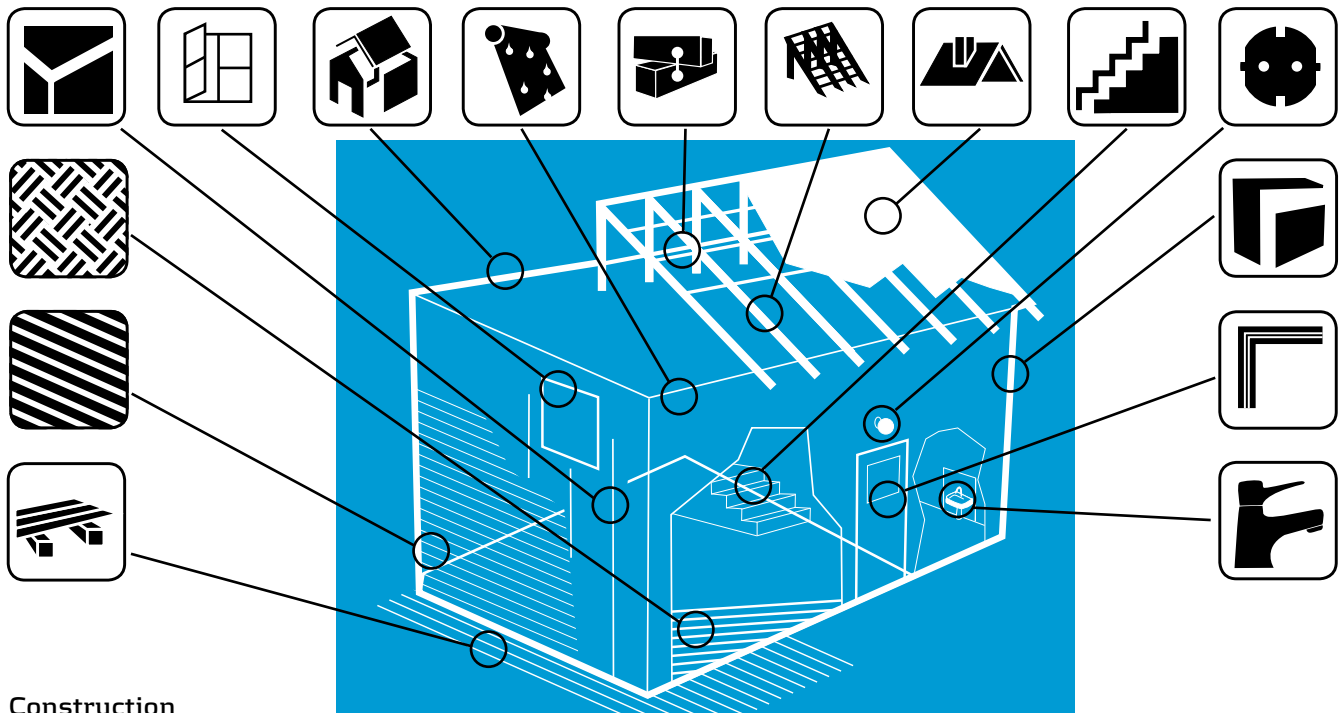

**BeA 901DC**

BeA nailers  
for Errebi  
systems

## BeA Nomenclature

### BeA Tool Description

### Shank properties

### Material

BK	= Steel, bright
NK	= Steel, electro galvanized
NK Hart	= Steel, galvanized, hard
NKS	= Steel, galvanized, extra hard
FV	= Steel, hot-dipped galvanized
VZ	= Steel, electro-galvanized
LM	= Aluminium, min 12 µm
A2	= Stainless steel, comparable to material 1.4301
A4	= Stainless steel, comparable to material 1.4401
KU	= Copper
MS	= Brass

### Surface properties

HZ	= Steel, resin coated to attain higher withdrawal values
Ring	= Ring Shank
Screw	= Screw Shank
NG	= Screw Nail

Standard: all BeA Staples, SK Brads and Pins are manufactured with chisel point

Standard: all BeA BDC and Strip Nails are manufactured with diamond point

### Staple and nail points

DP	= Divergent point, staple legs divert sideways away from the crown
IA	= Inside chisel point: staple legs turn inwards
AA	= Outside chisel point: staple legs turn outwards
CD	= Rebated edge of gypsum fire board (Fermacell)
SS	= Blunt point
NI	= Clinch point

### BeA certificates and classifications

BeA staple type 155 (38mm-65mm) in VZ HZ and NR HZ and BeA staple type 180 (40mm-80mm) in VZ HZ and NR HZ are in compliance with DIN 1052 part 2 and the general building inspection code.

All fasteners available from BeA that are used in building load bearing structures have the characteristics specified in Eurocode 5.

The complete required CE labels according to EN 14592 can be downloaded as pdf-files here: <http://www.bea-group.com/ce>.

For the planning of structural framework according to EN 1995-1-1 you can take the necessary details from these documents.

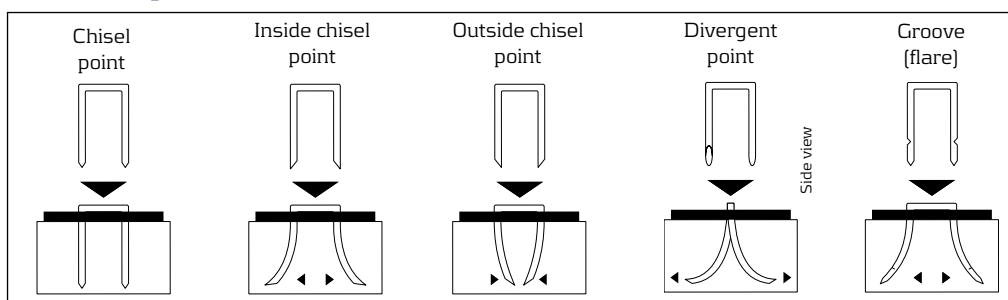

### EUROPEAN PALLET ASSOCIATION (EPAL)

BeA is a partner of the European Pallet Association and is approved to manufacture EPAL dome head ring Nails.

All BeA Pneumatic tools are in compliance with safety regulations as outlined in the EG machinery directive 2006/42/EG and are labelled with the CE mark.

11800077	HM 640/43 General purpose adhesive, transparent white, long bonding time. For substrates such as: composites, light alloy metal, fabrics	10.0	36
11800078	HM 642/43 General purpose adhesive. Amber colour. Long bonding time. For substrates such as: wood, timber products and many composite materials	10.0	36
11800080	HM 660/43 Adhesive for critical substrates, ivory. For substrates such as: composites, glass, ceramics and metal	10.0	36

	Item No.	Description	Fastener Type	Capacity/ Pieces	Weight (net)
	12500078	BeA 351 for spray application	Sticks Ø 43 mm	2 Sticks	1.4 kg
	14000159	Pressure regulator			

Item No.	Description	kg/ Carton	Cartons/ Pallet
11800070	SP 420/43 Sprayable, beige coloured (BE)/colored (AE), long bonding time (approx. 3 min.)	10.0	36
11800072	SP 431/43 Sprayable, beige coloured (BE)/colored (AE), very long bonding time (approx. 6 min.)	10.0	36

## BeA Compressors

	Description	Item No.		Weight (net)			
	Compressor K 160-6	12400086		9 kg			
		Volume/ min	Outcome Volume	max. pressure	Capacity	Voltage	Engine power
		160 l/min	65 l/min	8 bar	6 Litre	220 V	1.1 kW

	Description	Item No.		Weight (net)			
	Compressor K 192-10	12400087		25 kg			
		Volume/ min	Outcome Volume	max. pressure	Capacity	Voltage	Engine power
		190 l/min	100 l/min	8 bar	10 Litre	220 V	1.1 kW

	Description	Item No.		Weight (net)			
	Compressor K 270-20 oilfree	12400123		45 kg			
		Volume/ min	Outcome Volume	max. pressure	Capacity	Voltage	Engine power
		265 l/min	160 l/min	10 bar	20 Litre	220 V	1.8 kW

	Description	Item No.		Weight (net)			
	Compressor KV 350-15	12400093		50 kg			
		Volume/ min	Outcome Volume	max. pressure	Capacity	Voltage	Engine power
		350 l/min	240 l/min	10 bar	15 Litre	220 V	2.2 kW

	Description	Item No.		Weight (net)			
	Hose drum 30 m inner diameter 8.5 mm	14000406		9 kg			

## BeA Power Packages

Item No.	Description	Fastener Type	Length from - to in mm	Weight
12100493	K160 KIT with 380/16-420	80 / 380	6 - 16	14 kg
12100495	K160 KIT with 380/16-429LN	80 / 380	6 - 16	14 kg
12100497	K160 KIT with 90/40-621	90	15 - 40	14 kg
12100498	K160 KIT 229	99 / SK 300	99 = 22 - 40 SK 300 = 20 - 50	14 kg
12100499	K160 KIT with SKAM 350-226C	SKAM300	20 - 50	14 kg
12100491	K160 KIT with SKAM 450-227C	SKAM 400	25 - 50	14 kg
12100500	K160 KIT with SKS 650-228	SKS 600	18 - 50	14 kg

BeA Power Package (K160 Kit) comprising:

K160-6 compressor

+

Spiral Hose

+

Blow Gun

+

Stapler of your choice

## BeA Automated Fastening Systems

	Description	Fastener Type	Length from - to in mm	Capacity/ Pieces
	Modular Tool Long Magazine	Staples Pins T Nails Corrugated Fasteners	4 - 130 mm	300 - 500
	Modular Tool Side Loader	Staples Pins SK Nails Corrugated Fasteners	4 - 110 mm	up to 5,000
	Modular Tool Top Loader	Staples Pins SK Nails D Head Nails Corrugated Fasteners	4 - 65 mm	up to 10,000
	Modular Tool Changeover Cassette	Staples	25 - 80 mm	1,900 - 2,000
	Modular Tool Strip Nailer	D Head Nails R20 Strip Nails	50 - 100 mm	up 140
	Modular Tool for Jumbo Coils	BDC Nails	45 - 90 mm	up to 3,000
	Autotec for Staple Type 346 (wire diameter 3,0 mm) 	Staple type 346	200 mm	up to 280

## BeA Automated Fastening Systems

	Description	Fastener Type	Length from - to in mm	Capacity/ Pieces
	Modular Tool Clinching Unit	Staples Pins SK Nails	4 - 25 mm	300 - 500
	Modular Tool Skater	Staples BDC Nails	4 - 65 mm	up to 500
	Modular Tool Robotic Self Reloading System	Staples Pins SK Nails	8 - 65 mm	to 30.000

## Magazine Types

Long Magazine

Side Loader

Changeover Cassette

Self Reloading System

Top loader

Ask for our detailed  
Autotec brochure

## Magazine Selection

The magazine type is dependant upon:

- type and available space within the mounting system

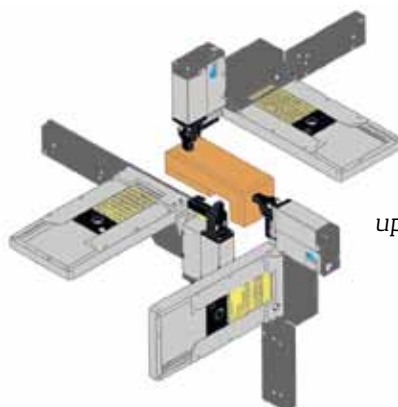

*Stapling station integrated in production line*

- type of magazine required

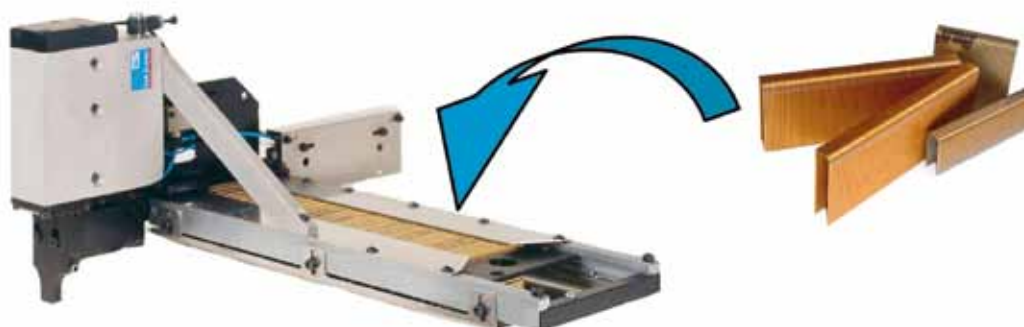

- stapling direction

*up, down, horizontal*

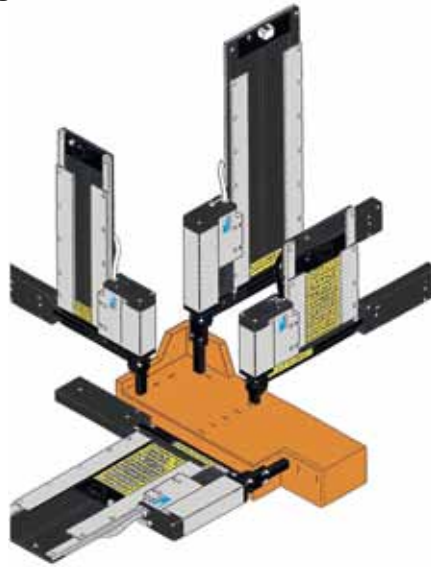

- available space for re loading

## Selection of nose length

The nose length depends on the height of the workpiece

## BeA automated systems for pallets and boxes

### BeA nailers and ERREBI systems

- Automated machines for packaging and much more
- NC controlled machines
- Automation for the assembly of boxes, pallets and wood packaging in general
- Automation for the assembly of prefab boxes, fencing and garden furniture
- The flexibility to add additional tools such as: drills, mills and saws

### Technical details

- Working table 1600 x 8500 mm
- Actual nail range 1500 x 7800 / 8200 mm
- Programmable nail height of up to 300 mm [M2/M5]
- Programmable nail height of up to 600 mm [M8]
- Separate nailing pressure setting for front and rear pneumatic nailers. On request, other working table and nail range dimensions are also possible.

On request, all BeA nailers can be delivered as swivel mounted versions. As such, six identical units can be used, the working speed can be increased and at the same time productivity can also be boosted.

brochure now!**

## BeA Timber Connectors

	Description	Dimension, Material, Application
	Joist Hangers Legs inside and outside	<ul style="list-style-type: none"> <li>- Available in different sizes</li> <li>- Galvanized Steel Plates</li> <li>- For fixing beams</li> </ul>
	Angle Brackets	<ul style="list-style-type: none"> <li>- Available in different sizes</li> <li>- Galvanized Steel Plates</li> <li>- For fixing trimmer joist to timber</li> </ul>
	Roof Ridge Fixing	<ul style="list-style-type: none"> <li>- Available in lengths 160 – 370 mm</li> <li>- Galvanized Steel Plates</li> <li>- Used in roof frames and for crossing beams</li> </ul>
	Jointing Plates and Bars	<ul style="list-style-type: none"> <li>- Available in different sizes</li> <li>- Galvanized Steel Plates</li> <li>- Used mainly in beam and roof constructions</li> </ul>
	Truss Brace	<ul style="list-style-type: none"> <li>- Available in different sizes</li> <li>- Galvanized Steel Plates</li> <li>- Used for stabilizing timber constructions</li> </ul>
	True Shoe Wood and Concrete	<ul style="list-style-type: none"> <li>- Available as type H for wood and type B for concrete</li> <li>- Hot Dipped Galvanized Steel Plates</li> </ul>
	Bulk Nails	<ul style="list-style-type: none"> <li>- Available in lengths 80 – 330 mm</li> <li>- For roof trusses</li> </ul>
	HVV Anchor Nails	<ul style="list-style-type: none"> <li>- Available in lengths 35 – 100 mm, Ø 4,0 mm</li> <li>- For fastening HVV Timber Connectors</li> </ul>

## BeA Timber Connectors

	Description	Dimension, Material, Application
	Gusset Plates	<ul style="list-style-type: none"> <li>- Available in lengths 90, 130, 170 and 210 mm</li> <li>- Galvanized Steel Plates</li> <li>- Used for anchoring timber when fixing roofing sheets</li> </ul>
	Angled Lugs	<ul style="list-style-type: none"> <li>- Available in different sizes</li> <li>- Steel plate, hot galvanized after punching</li> <li>- Used for fixing wood to concrete</li> </ul>
	T Anchor Plates	<ul style="list-style-type: none"> <li>- Available in lengths 160, 180 and 200 mm</li> <li>- Galvanized Steel Plates</li> <li>- For simple fixing of a T Girder to timber</li> </ul>
	Column Shoes	<ul style="list-style-type: none"> <li>- Available in different types and sizes</li> <li>- Hot dipped galvanized after welding</li> <li>- Used for casting in concrete when fixing posts</li> </ul>

BeA supplies a wide variety of timber connectors. Please ask for our comprehensive HVV catalogue.
